

THE ROCKEFELLER UNIVERSITY

1230 YORK AVENUE · NEW YORK, NEW YORK 10021

OFFICE OF THE PRESIDENT

February 2, 1978

Professor Joshua Lederberg
Stanford Medical School
Department of Genetics
Stanford, California 94305

Dear Professor Lederberg:

Enclosed is the material on Walter Gilbert you requested of Rita Henry, Mr. Woodd-Cahusac's secretary. (The request was passed on to me because, among my other responsibilities, I serve as Secretary to the Academic Council.) The institutional guidelines for appointments from the outside are included in the "Policies Governing Appointments and Promotions" which I sent you the other day. As I understand it, Dr. James Darnell is the principal faculty liaison to Dr. Gilbert. Please let me know if there is any additional material we can obtain for you.

Also enclosed, as requested, is the latest progress report on the University's Program in Reproductive Biology.

Sincerely,

Antonia M. Siddiqi (Mrs.)
